## Sample Details

Participants are provided with a case scenario describing the scene of an incident in which a sample has been obtained.

Sample	Description
ID1	Bottle(s) containing a substance that is to be analysed. Identification of the substance is to be undertaken and results of any quantification may also be submitted. This sample has been obtained at a scene for which there is a case scenario.
ID2	Control sample that will act as a reference.

For details on the full technical specification of the scheme, please refer to the FAE Scheme Description.
